Wagner da Silva de Jesus Vale

Full Stack Developer | React.js • Next.js • Node.js • Python • C#/.NET | AI
Applications (LLMs)

Summary

Full Stack Developer focused on Frontend, specialized in React.js and Next.js. Experience building scalable interfaces, integrating REST APIs, and working on backend development with Node.js. Hands-on experience with Python and C#/.NET in integrations, system maintenance, and backend architecture support. Experienced in Artificial Intelligence platforms (LLMs), contributing directly to system stability, performance, and scalability in production environments.

Experience

Future Secure AI – Software Developer (2024–2026)

- Development of scalable interfaces using React, Next.js, and Vue.js
- Implementation of features for AI platforms using LLMs
- Integration and consumption of REST APIs
- Development and maintenance of backend APIs and services using Node.js, Python, and .NET technologies
- Critical bug fixing and optimization of production stability
- Integration of OpenAI and Ollama models for automation and intelligent features
- Participation in scalable applications with service-oriented architecture and API communication

Freelance – Frontend Developer (2021–2023)

- Development of interfaces using React.js
- Focus on performance and usability
- API integration for data consumption

Education

Systems Analysis and Development – Uni9 (2021)
