PROFESSIONAL SUMMARY

Software Engineer with experience in web applications, APIs, microservices, and scalable solutions using .NET, Node.js, React, and cloud technologies. Experience with AI, automation, REST APIs, Docker, Kubernetes, observability, CI/CD, and microservices architecture.

CORE COMPETENCIES

FRONTEND	BACKEND	DATABASES	CLOUD & DEVOPS	ARCHITECTURE
React.js JavaScript TypeScript	.NET Node.js REST APIs	PostgreSQL SQL Server MySQL	Docker Kubernetes CI/CD	Microservices Observability Clean Architecture

PROFESSIONAL EXPERIENCE

Future Secure AI – Software Developer (Full Stack) | Nov/2024 - Apr/2026

- Development of an AI-powered automation platform.
- Integration of LLMs and intelligent workflows.
- Design and development of APIs and distributed architectures.
- Implementation of AI agent versioning and rollback mechanisms.
- Production support and SLA compliance.

Arena Consultoria – Full Stack Developer | Jan/2020 - Oct/2024

- Development of performance monitoring solutions.
- API integrations for data capture and consolidation.
- Backend development using .NET and Node.js.
- Development of React.js interfaces.
- Development of APIs, integrations, and dashboards.

Operations and Management Professional | Aug/2006 - Oct/2019

- Experience in logistics, operational management, and transportation.
- Team management and process control.
- Development of leadership, organization, and problem-solving skills.

EDUCATION

UNINOVE – Associate Degree in Systems Analysis and Development (2019 - 2021)

CERTIFICATIONS

- Scrum Foundation Professional Certificate (SFPC)
- TypeScript Development Training Program
- JavaScript Web Applications with Concurrent and Object-Oriented Tasks
